**[The Pharma Gorilla (Singapore Edition)- 2019]
[Top Pharma Leaders Award]**

Singapore, Sentosa: On 26 June, 2019, The Pharma Gorilla announces Prasanna Vudayagiri, Director-Automation, NNE India, the winner of “Top Pharma Leaders Award” at The Pharma Gorilla, Singapore Edition. The award recognizes the people & companies which innovates, modify, restructure the products & services in the Pharmaceutical & Healthcare sectors.

Prasanna Vudayagiri (Director Automation, NNE India), represented NNE India & has given an exclusive presentation on the topic “**Surmounting data integrity issues in manufacturing**”. During his exclusive presentation he has talked about various topics like “importance of Data Integrity”, “challenges in data integrity”, “end goal of integration” and also discussed how these challenges can be overcome by implementing data integrity at various automation levels.

These were the words he said while receiving the award:-

“Thanks to The Pharma Gorilla & that I am really thrilled as being a Singaporean I am coming back to Singapore from India for receiving the award, I am also thankful to my company NNE, India, I am also thankful for supporting me & bearing me from last 37years to improve my career ”

About “NNE India”:

In 1996, NNE (formerly known as NNE Pharmaplan) began its operations in India. We are over 140 employees, with our headquarters in Bengaluru. NNE in India believes in delivering high quality engineering services to our customers by providing them with best-in-class solutions. We offer our Pharma and biotech customers the full range of NNE’s engineering and consulting service portfolio. Our experts always strive to serve our customers with state-of-the-art expertise and the latest technology know-how. We work in international teams together with our colleagues from the Europe and the other worldwide offices. In 2012, we decided to establish a Vaccine Centre of Competence in our Bengaluru office. Acting as a global coordination hub for NNE's vaccine projects, the center draws together the company's experiences in India and other emerging economies. NE in India offers a development platform for employees by providing exposure to high quality international and national projects, in the right technology area. Employees have wide opportunities to learn and develop from the various learning platforms and training programs available to them. Our flat hierarchy is an enabler for building highly functional teams. We provide a host of benefit programs that makes NNE a preferred employer in the Pharma engineering industry.
